## SPA POWER 601-30

**NEW**

The SP601-30 is a new addition to the SP601 range of controllers which features a 3kW heater. Pair the SP601-30 with a two speed main pump and the result is a very economical spa system.

### Features

- 1 x two speed pump control (only a two speed pump to be used with this model)
  - Single speed or variable speed blower (SPVSB) control
  - Ozone outlets
  - Pool temperature control using either an "In pool" or "In heater" sensor
  - Adjustable filtration control
  - Available with or without a digital time clock
  - Super hard, non stick, 250°C element coating
  - Safety thermal cutout
  - Optical water sensor
  - Variable colour light (SPVCL) control providing the following effects:  
13 colours available, with fast & slow cycling
  - Or budget Single Colour LED Light (SPCL) option
- In addition the SP601 dip switches can be altered to select
- In heater or in pool temperature sensor

A simple, easy to use pool side touch pad with a digital readout and clearly labeled switches to control pump on/off, heater on/off and speed or auxiliary pump on/off, light on/off and colour, water temperature setting and filtration time selection. The digital readout also shows pool water temperature and diagnostic error codes. The Spa Power 601 touch pad comes in either rectangular or the new night backlit oval model.

The SP601 uses new AMP connectors for flexibility and consistency with the SP800 and SP1200 so common stock of accessories can be used. AMP plugs are available to modify existing stock if required.
